KRV35 A	2000	3500	150	120×120	361-0124-05	203995.001

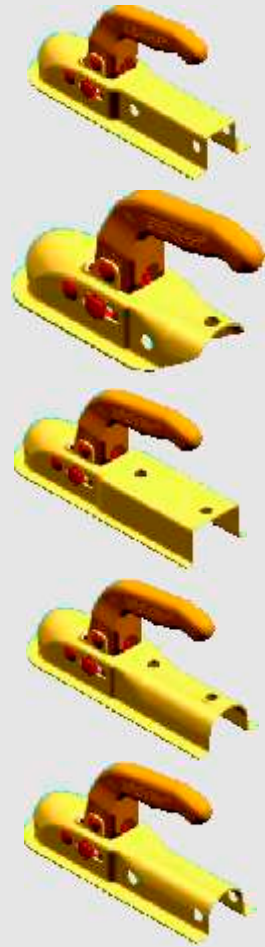

The overrunning can be ordered either with DIN, or with NATO eye..

The KNOTT Group – Coupling head

Plastic safety ball

Maximum load capacity: 750-3500kg

- Lockable in open or close position with or without ball
- Anti-theft device
- EU approved
- Range of different handle
- Stamp metal version for square or round tongue ranging from 750 Kgs to 1400 Kgs load capacity
- Heavy duty cast iron construction for all kind of use up to 3500 Kgs

SEMI AUTOMATIC COUPLING HEAD

Load capacity from 750kg to 3500kg

Connecting size Ø36 - Ø70

Connecting size Ø 40 - Ø80

Surface treatment

Stainless steel
Hot dip galvanized
KTL (black)
Black zincplated
Zinc plated

Succesful salt-spray test

without time limit
1000h
500h
500h
350h

STABIFIX

Coupling head

INOX

Suitable for trailers and caravans
up to a maximum GVW of 3,500Kg.

Reduces instability (snaking and pitching) by increasing the clamping force on the towball and thus increasing the stability of vehicle and trailer or caravan.

ADJUSTABLE FRICTION PADS THAT ENSURE CORRECT
PRESSURE IS SET AND MAINTAINED ON THE TOWBALL
PROVIDING A PERFECT GRIP

UNIQUE THEFT PREVENTION FEATURE WITH INTEGRAL LOCK,
INSURANCE COMPANY APPROVED

COUPLING DEVICES WITH SWIVEL MOUNT JOCKEY WHEEL

Newly designed
swivel mount jockey wheel

In case the trailer is detached from the towing vehicle and in the horizontal fixed position of jockey wheel, the sticking out handlebar can cause accidents or can be damaged.

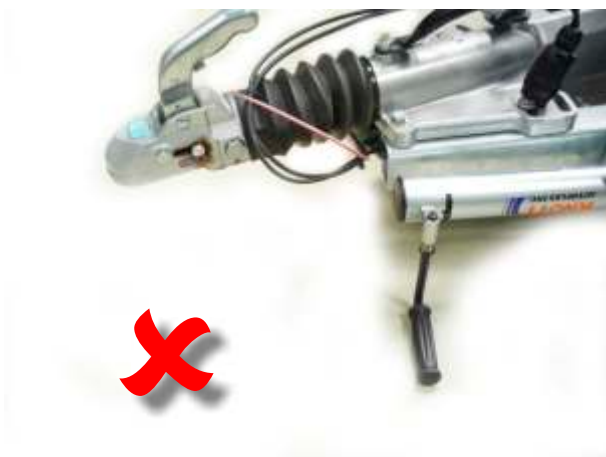

Foldable crank handle

COUPLING DEVICES WITH SWIVEL MOUNT JOCKEY WHEEL

In case the trailer is detached from the towing vehicle and in the horizontal fixed position of jockey wheel, the sticking out handlebar can cause accidents or can be damaged.

To avoid this kind of problems, Autoflex-Knott Kft. has designed a new foldable sidewind handlebar.

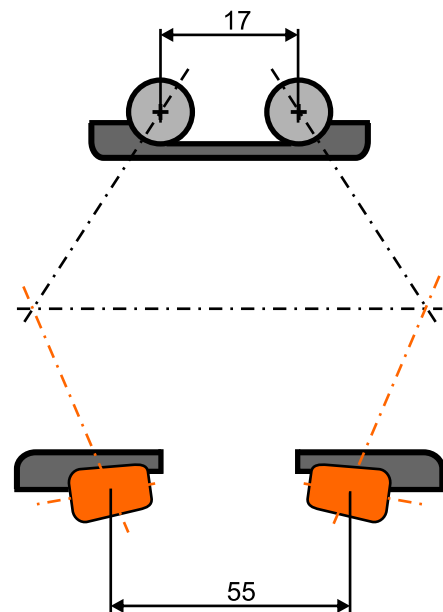

Double row bearing with skew influence line

Heavy duty, maintenance free, water resistant angular ball bearing with double skew influence line are applied in our series production axles.

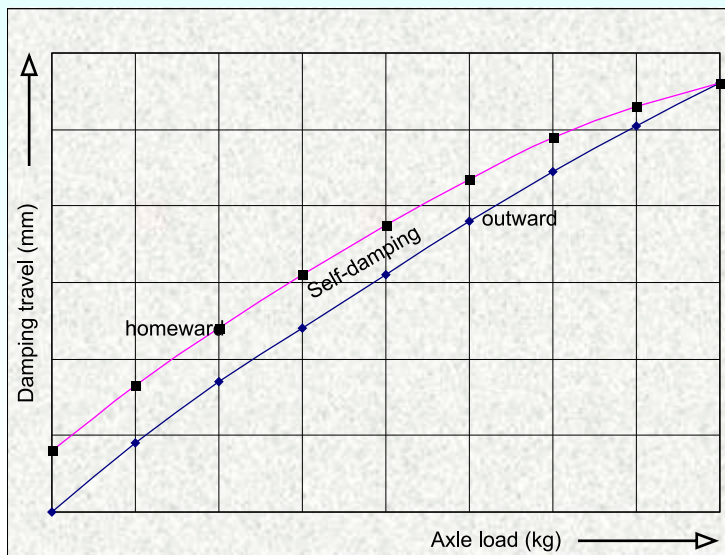

Connecting to the mechanical characteristics, the skew influence line bearing with ball-row distance of 17mm is equivalent to two pieces of bevel roller bearing with roller distance of 55mm.

European Quality Trailer Axles

RUBBER TORSION AXLES

Suspension diagram

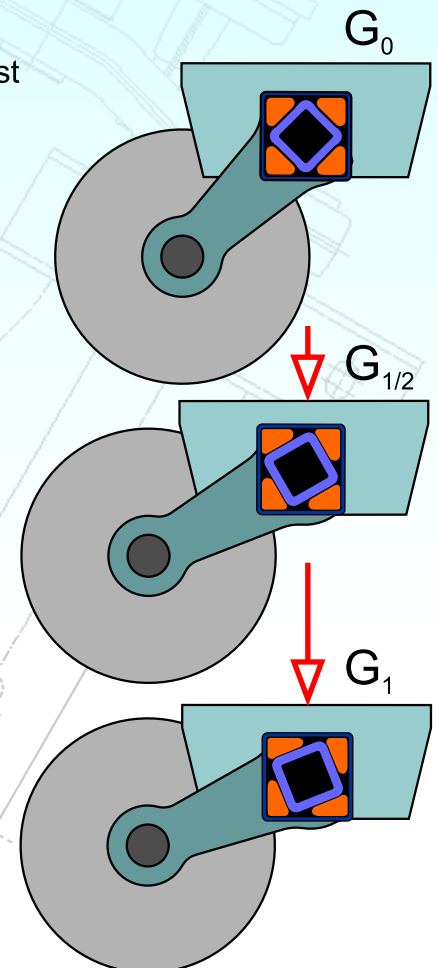

The advantages of using the 4 pieces torsionrubbers of 90degrees:

- correct guideline
- stable underpinning
- inner self-damping
- precisely adjustable spring power

State of rest

Half-load

Full load

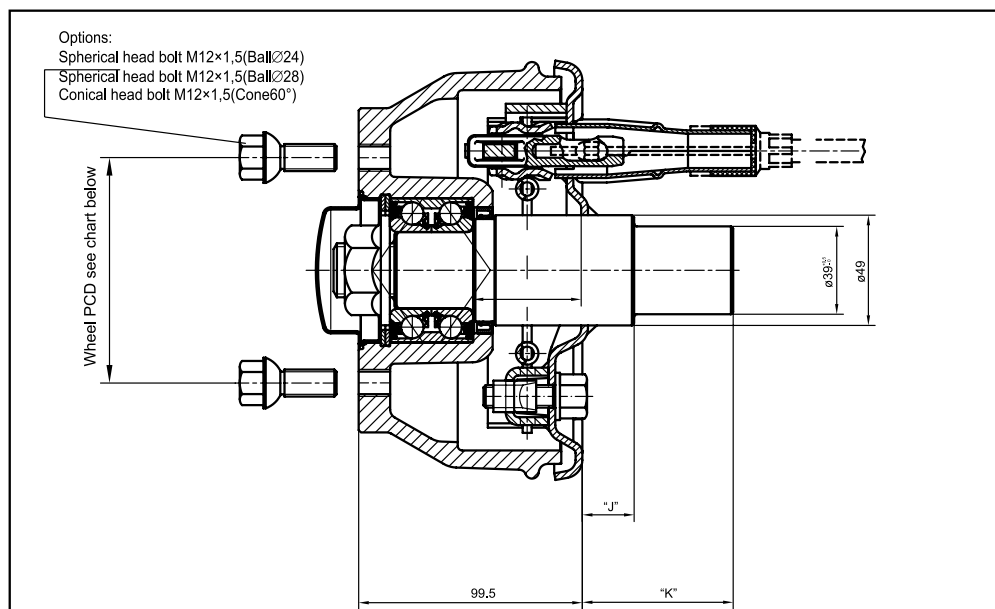

The mounted swing arm -with non braked or overrun braked wheel hub (and with wheel)- is assembled onto the unsupported end of the inner axle stub.

In case of rubber torsion axles, the axle of the swingarm (square tube) is turned away with 90 degrees in the square profil of the axle body and elastically supported with 4 pieces torsion rubbers.

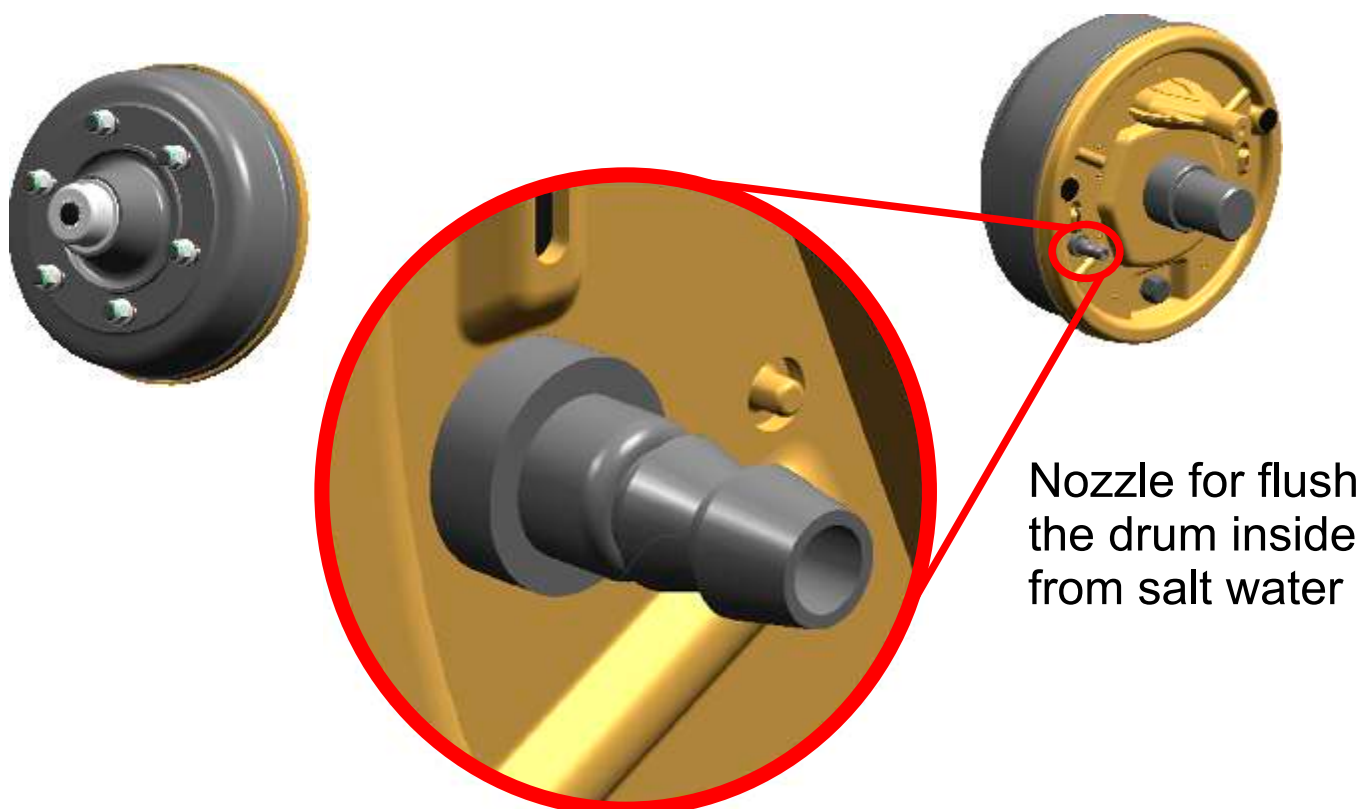

These originally round-profiled rubber bars are placed in the edges of the square-form axlebody - filling the place there - , a bit deformed.

The progress of the suspension is: as a result of the stress the swing arm will be turned in the axle body profile, and therefore the rubber bars will be flexibly deformed. After stop of this stress, the rubber elements get back their original powerless form, resulting that the swing arm returns to its basic position. The frictional force between the rubber elements and the square tube (outside, inside) and the internal resistance of the rubber element result enough damping while suspending. The suspension power can be ruled by the length of the rubber bars and by the content of the rubber mixture.

MECHANICAL BRAKE DRUM AND STUB (waterproof)

Brake drum diameter:	160 mm (6.3")	Maximum wheel hub load:	450 kg
Applicable din. Wheel diameter:	min .368m max .580m	Maximum axle load:	900 kg
Brake EC approval No:	5177/77	Offset of wheel disc ET (inset)	25-35mm
		Brake type:	KNOTT 16-1365

NON BRAKED HUB AND STUD (waterproof)

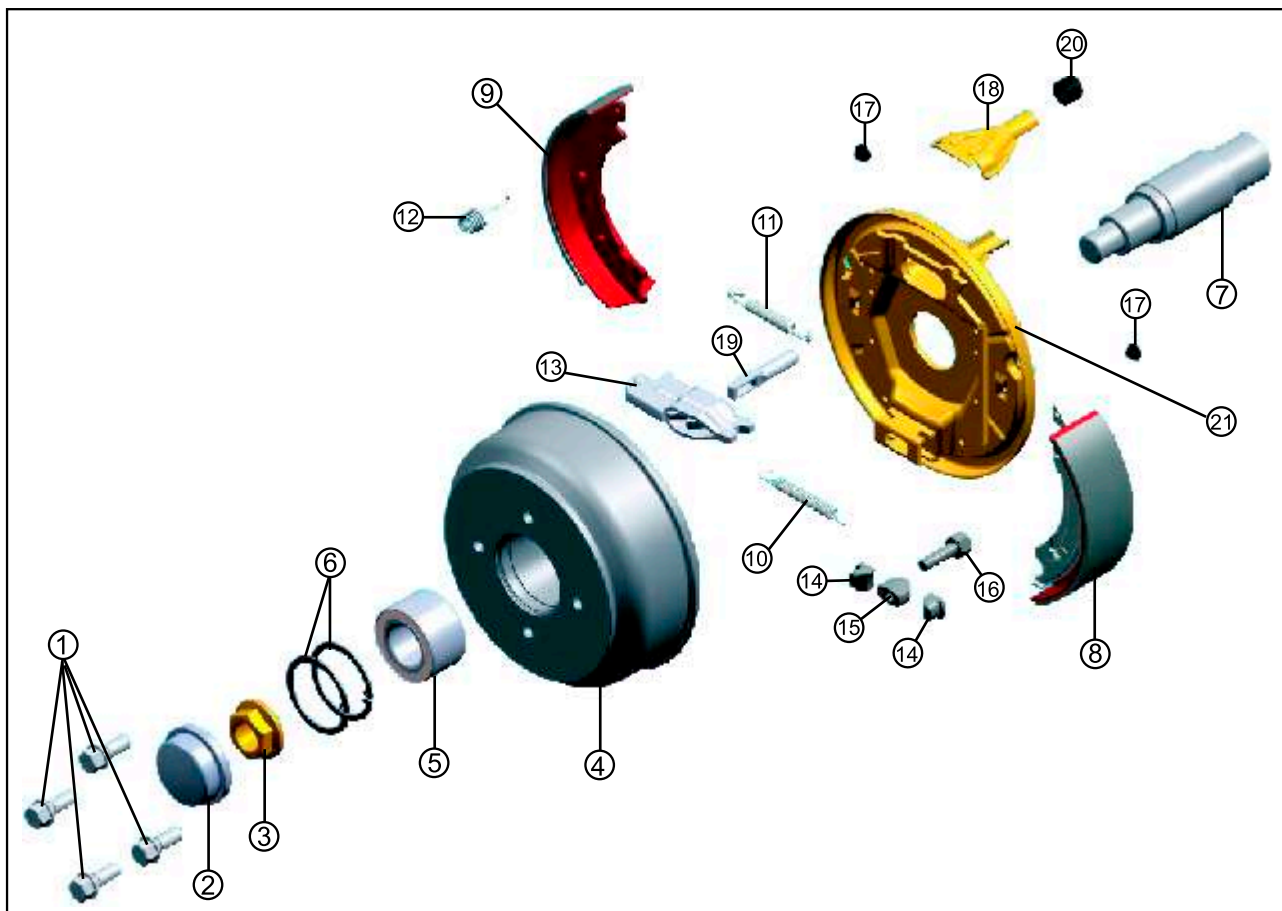

Surface treatment

Hot dip galvanized
KTL + gray powder
KTL (black)

Succesful salt-spray test

1000h
1000h
500h

The stainless steel cable is made from stainless steel wire twisted cable and a stainless steel shield, the threaded end and sleeve are high protected against corrosion.

MOUNTING MUDGUARDS AND AXLES

Mudguards

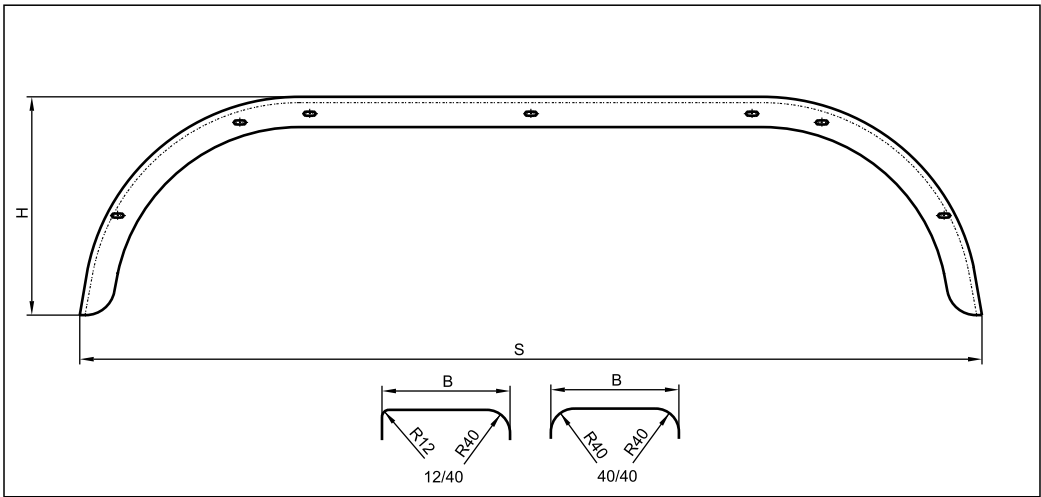

DOUBLE AXLE STAINLESS STEEL MUDGUARDS

Type	Article number	Lenght S (mm)	Hight H (mm)	Width B (mm)	Profile	Material
14"	6X1486.001	1500	410	240	12/40	Stainless steel

Tandem mudguards with a profile of 12/40. Radius 12 is for sidewall-mounting on a trailer.

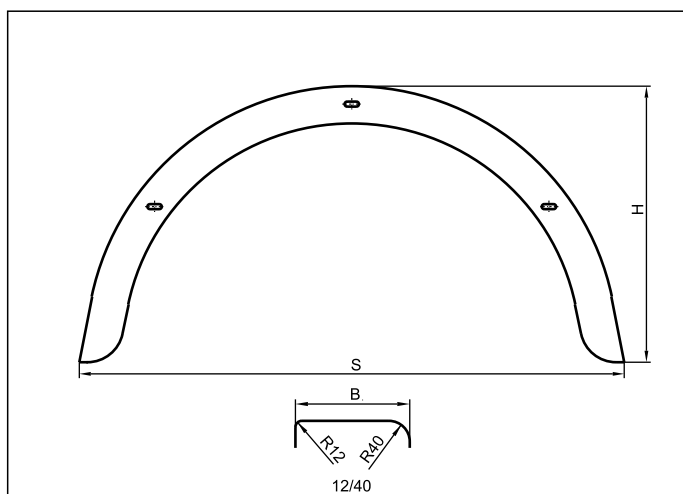

SINGLE AXLE STAINLESS STEEL MUDGUARDS

12/40

Type	Article number	Lenght S (mm)	Hight H (mm)	Width B (mm)	Profile	Material
13"	6X1485.001	660	345	200	12/40	Stainless steel
14"	6X1485.002	750	390	240	12/40	Stainless steel

Mudguards with a profile of 12/40. Radius 12 is for sidewall-mounting on a trailer.

PAINTED METAL MUDGUARDS 12/40

weatherproof
construction

Wide selection of choice according to RAL color chart.

Sensimir-galvanized metal mudguards with a profile of 12/40.
Radius 12 is for sidewall-mounting on a trailer.

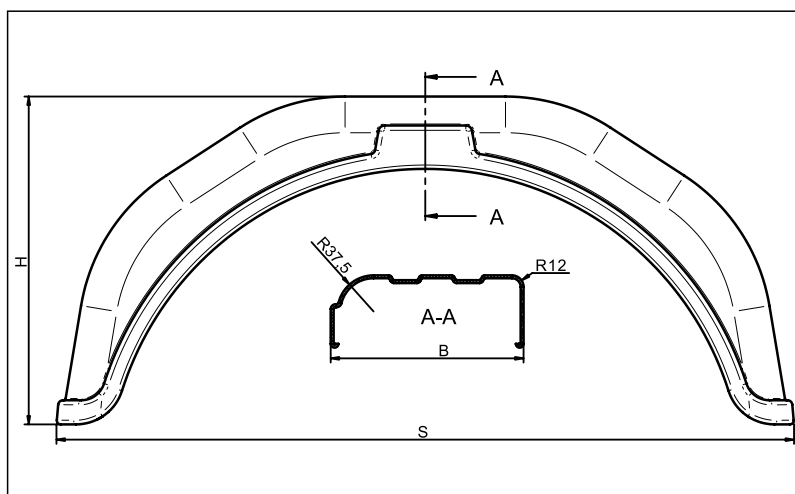

PLASTIC MUDGUARDS

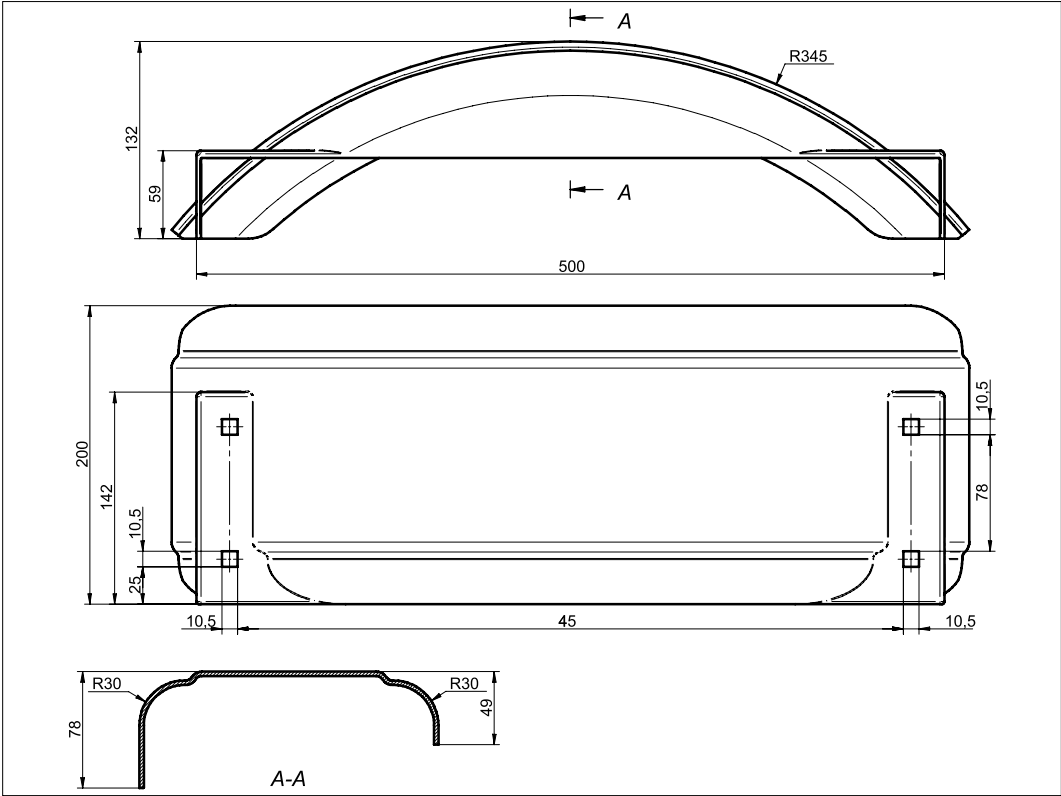

Type	Part number	Lenght S (mm)	Hight H (mm)	Width B (mm)	Profile	Colour

15"	6X0744.004	760	327	220		black
Tandem		1550	400	240		black

Mudguards with a profile of 6/25, 12/37,5 and 12/40 are for sidewall-mounting on a trailer.

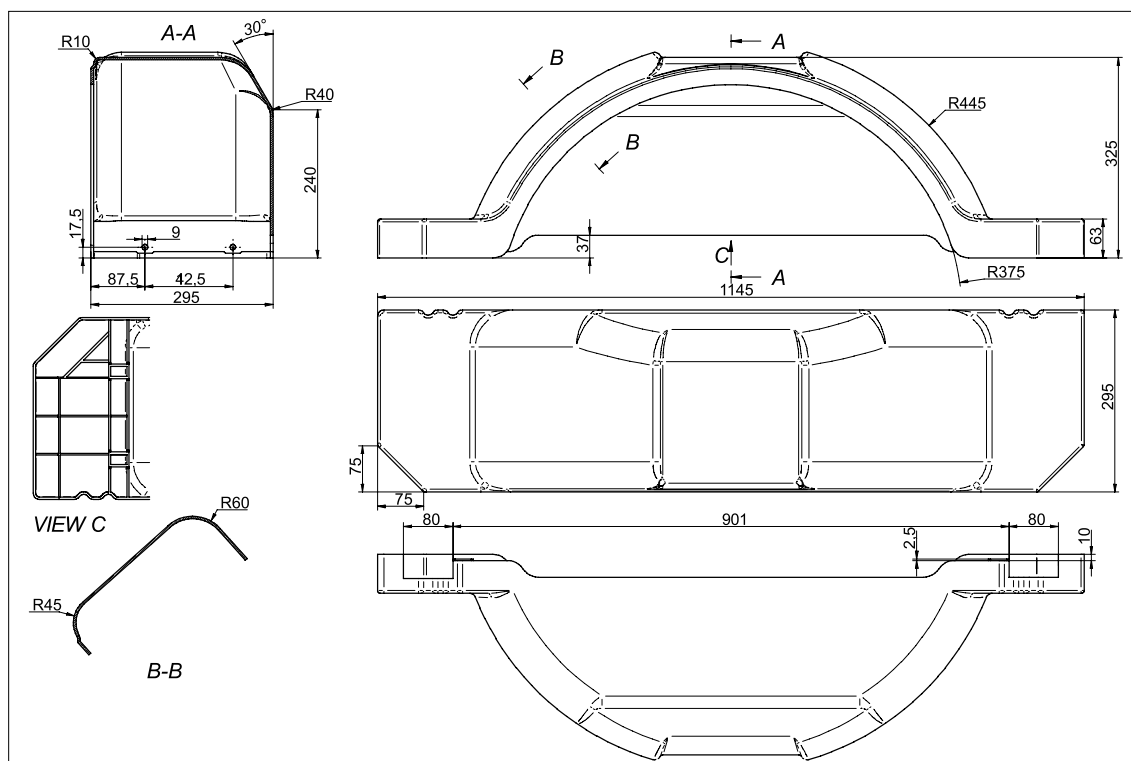

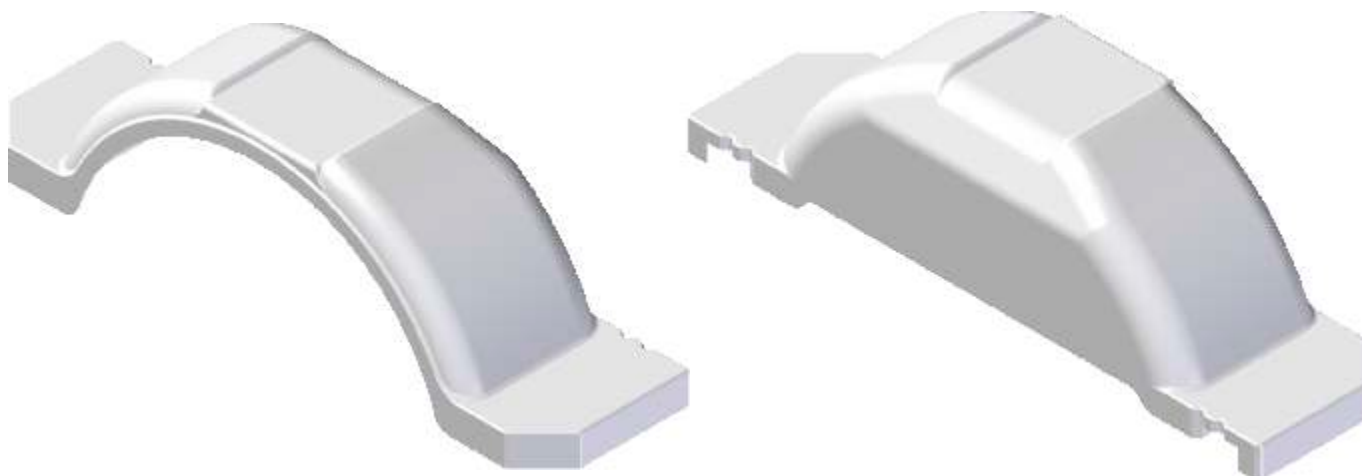

BOAT-TRAILER PLASTIC MUDGUARDS (small)

Type	Article number	Lenght S (mm)	Hight H (mm)	Width B (mm)	Profile	Color
Small	6A6594.001	500	132	200	30/30	white

BOAT-TRAILER PLASTIC MUDGUARDS (big)

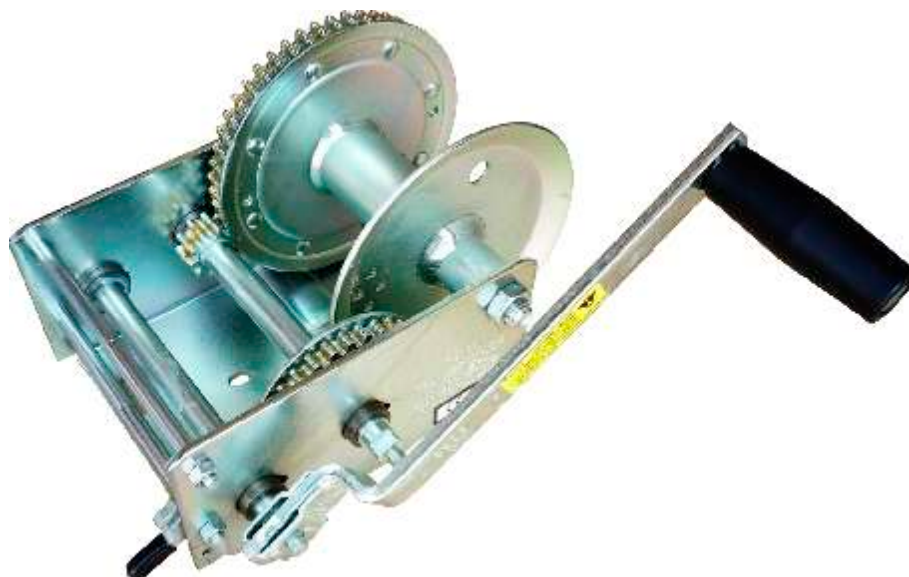

Type	Article number	Lenght S (mm)	Hight H (mm)	Width B (mm)	Profile	Color
Large	6A6595.001	1145	325	295	10/40	white

MOUNTING WINCHES AND BOW ROLLERS

WINCHES

Type	Article number	Capacity (kg)	Reversible ratchet	Speed	Material
T3700	6X0017.003	1700	yes	2-speed	zinc plated

- Reversible ratchet to allow cranking cable or strap onto the drum in either direction.
- 2-speed models have a drive shaft system which allows for both high and low speed cranking from one side.
- The winches aren't mounted with cable or strap.

WINCHES (with plastic cover)

Winches

Type	Article number	Capacity (kg)	Reversible ratchet	Speed	Material
702002	6X0017.204	450	yes	1-speed	zinc plated
702007	6X0017.205	900	yes	2-speed	zinc plated
702008	6X0017.206	1150	yes	2-speed	zinc plated

Winches with steel cable and hook
